

Building diversity & great minds

A Tuition-Free Charter Public School

**MULTICULTURAL
ACADEMY**

Professional Development

Professional development at Multicultural Academy is viewed as a necessary and continuous effort to improve our programs by involving all educators in activities that enhance their performance, knowledge and attitudes. Our major focus is to develop knowledge and skills within our administration, instructional and support staff that impact student achievement and their personal growth.

Our priorities and goals relative to program and professional development are data-driven, with decisions that are based upon objective findings accrued over time.

The goal of our professional development efforts is to focus on enhancing the individual's knowledge of their field and knowledge of learners, the process of teaching and learning.

The Academy is committed to providing ongoing professional development throughout the school year that will ensure learning opportunities that provide appropriate professional growth for its entire staff.
